SUBJECT INDEX TO VOLUME 8.

Acetolyse von 1-Bromsinomenein, über die, ... 366
Adenine 17
Adipic acid 165
Adipinsäure 94
Adsorptionsisotherme, zur theoretischen Deutung der Freundlichschen, ... 120
Aging, on the influence of light and the effect of, ... 107
Alanine 215
Amino-acids, on the oxidation of various, ... 213
Amino-acids and related compounds, studies on, ... 125, 137, 169, 173, 178, 189, 213
Anodischer Oxidation, das Verhalten des Cyclohexans und seiner Derivate bei, . . . 71
Antimony electrode for the measurement of hydrogen ion concentration. 1
Arginine, electrolytic oxidation of, ... 169
Aromatic ketones with highly negative groups, reduction of, ... 33
Aspartic acid 215, 224
Association degree of constituents being taken into consideration, a viscosity formula for binary mixtures, ... 280, 293

Beer yeast, putrefactive products of, ... 14
Benihial 371
Benihic acid. 371
Benihinal. 375
Benihinol. 375
Benihiol 377
Benihyl acetate 381
Benihyl benzoate 381
Benihyl chloride 382
Benihyl formate 381
Benihyl iodide 382
Benzoic acid, Raman effect of a series of esters of, ... 333
Benzoquinone 187
Boiling point curves of the binary systems, $TiCl_4$-CCl_4, $TiCl_4$-$SiCl_4$ and $TiCl_4$-$SnCl_4$. . 392
1-Brom-diacetyl-sinomenin 368
1-Brom-diacetyl-sinomenol 368
1-Brom-3-methoxyl-4,6,7(?)-triacetoxy-phenanthren 369
p-Bromo-diphenyl. 25
1-Brom-sinomenein, über die Acetolyse von, ... 366
Bronze age in ancient China, on the transitional period between the copper and, . . 133
Buffer solution 4

Cadaverine. 20
γ-Camphorene 144
Camphorene octabromide 148
α- and γ-Camphorene tetrahydrobromide 147
α- and γ-Camphorene tetrahydrochloride 147
CCl_4-$TiCl_4$, boiling point curve of the binary system, ... 392

CCl_4-$TiCl_4$, freezing point curve of, ... 200
Chinone 77
Collision diameter 272
Copper age in ancient China, on the, ... 133
Copper and bronze age in ancient China, on the transitional period between the, . . 133
Copper hydroxide in silica gel 12
Cyclohexandiol 96
Cyclohexanol, elektrochemische Oxydation von, ... 84
Cyclohexanon 86
Cyclohexans und seiner Derivate bei anodischer Oxydation, das Verhalten des, . . . 71
Cyclohexen 86

Dihydroisoosthol, a synthesis of, ... 276
α, β-Dinaphthyl ketone, reduction of, ... 22
Dissociation of pinacones 31
Diterpene, a new, ... 144

Electric moment for ethylene chloride 304
Electrolytic oxidation of arginine. 169
Electrolytic oxidation of glutamic acid 125
Electrolytic oxidation of imidazolyl-propionic acid 189
Electrolytic oxidation of pyrrolidone-carboxylic acid 137
Electrolytic oxidation of tyrosine and phenylalanine 178
Electrolytic reactions of leucic acid 173
Electronegativities of α- and β-naphthyl radicals 22
Electronegativities of organic radicals, the pinacoline rearrangement as a method of establishing relative, ... 27
Elektrochemischen Oxydation, das Verhalten des Pyridinringes bei der, ... 306
Elektrochemische Oxydation des Benzols 72
Elektrochemische Oxydation des Cyclohexans 78
Ethylene chloride, electric moment for, ... 304
Ethylene chloride, on the refractive index and molar refraction of, ... 297

Fatty acids, Raman effect of a series of phenyl esters of, ... 333
Formic acid 77
Free energy and heat of formation of VO 241
Free energy and heat of formation of V_2O_3 243
Freezing point curves of binary mixtures: $TiCl_4$-$SiCl_4$, $TiCl_4$-CCl_4, $TiCl_4$-$SnCl_4$ and $TiCl_4$-$SbCl_5$ 195

Gelatine gel, silver chromate in, ... 13
Glucose-mono-schwefelsauressalzen und über ihre optische Drehungsvermögen, vereinfachung der Darstellungsweise von einigen, ... 37
Gluco-sulfatase 65, 148, 207
Glutamic acid 215, 223
Glutamic acid, electrolytic oxidation of, ... 125
Glutamic acid, oxidation of, ... 143
Glutamic acid, rate of oxidation of, ... 141

Glutarsäure 95
Glutarsäure-aethylenester 313
Glycine 215, 225
α-Glycols, studies on molecular-rearrangements of, ... 22, 27
Guanidine 169

Heat of formation of VO 241
Heat of formation of V_2O_3 243
Histamine 18
Histidine 217, 228
Hydrogen ion concentration, the stick antimony electrode for the measurement of, . 1
Hydroxyphenylacetic acid 185
Hypoxanthine 17

Imidazolyl-propionic acid 217, 228
Imidazolyl-propionic acid, electrolytic oxidation of, ... 189
6-Isoamyl-7-hydroxy-coumarine 279
6-Isoamyl-7-methoxy-coumarine 279

Lauric acid 165
Lead chromate in silica gel 13
Leucic acid 175
Leucic acid, electrolytic reaction of, ... 173
Leucine 21, 215, 225
Lysine 217, 230

Malonic acid 83
Mechanism of oxidation of imidazol compounds 191
Methyl-benihyl ether 382
Molar refractions of ethylene chloride and tetrachlorethane 297
Molecular-rearrangements of α-glycols, studies on, ... 22, 27
Monoaminocarboxylic acids, comparison of the oxidisability of, ... 218
Monochloracetate, the velocity of splitting off of chlorine from, ... 113
Myrcene 146

α-Naphthyl-diphenylyl-carbinol. 26
α-Naphthyl-diphenylyl-ketone 26
α-Nahpthyl-diphenylyl-methane 26
Naphthyl radicals, electronegativities of α- and β-, ... 22
Natural substrates of the enzyme 207
Nigaki oil, on, ... 161

Octadecenoic acid 164, 166
Organic compounds, the viscosity of vapours of, ... 255
Organic radicals, migration aptitudes, ... 27
Organic radicals, the pinacoline rearrangement as a method of establishing relative electronegativities of, ... 27
Osthol, note on the constitution of, ... 276

Oxidation of various amino-acids 213
Oxydationsmechanismus von Benzol und Cyclohexan, der Vergleich zwischen dem, . 101

Petroselinic acid. 164
Phenanthren, 1-brom-3-methoxyl-4,6,7(?)-triacetoxy-, ... 369
Phenanthren, 3-methoxy-4,6,7(?)-triacetoxy-, ... 370
Phenylalanine 183, 214, 222
Phenylalanine, electrolytic oxidation of, ... 178
Phenylethylamine 16, 20
Pinacoline rearrangement as a method of establishing relative electronegativities of organic radicals. 27
Pinacones, dissociation of, ... 31
Potentiometric titrations by using vacuum tube 254
Primary alcohol 390
Proline 216, 227
Putrefactive products of beer yeast 14
Putrescine 19
Pyridinringes bei der elektrochemischen Oxydation, das Verhalten des, ... 306
Pyrrolidone-carboxylic acid 216, 227
Pyrrolidone-carboxylic acid, electrolytic oxidation of, ... 137
Pyrrolidone-carboxylic acid, rate of oxidation of, ... 141

Raman effect of organic substances, studies of the, ... 333
Rate of solution of solid into liquid, a theory of the, ... 316
Rate of sublimation, a theory of the, ... 326
Refractive indices of ethylene chloride, 1,1,2,2-tetrachlorethane and of their mixture and the molar refractions of these substances 297
Rhythmic precipitates 11, 107

$SbCl_5$-$TiCl_4$, freezing point curve of, ... 204
Sesquibenihene 391
Sesquiterpene 385
Sesquiterpene alcohols 388
$SiCl_4$-$TiCl_4$, boiling point curve of the binary system, ... 392
$SiCl_4$-$TiCl_4$, freezing point curve of, ... 198
Silica gel, copper hydroxide in, ... 12
Silica gel, lead chromate in, ... 13
Silica gel, strontium oxalate in, ... 11
Silver chromate in gelatine gel. 13
Sinomenin, 1-brom-diacetyl-, ... 368
Sinomenol, 1-brom-diacetyl-, ... 368
$SnCl_4$-$TiCl_4$, boiling point curve of the binary system, ... 392
$SnCl_4$-$TiCl_4$, freezing point curve of, ... 202
Solid into liquid, a theory of the rate of solution of, ... 316
Solid, solubility of, ... 322
Solid, the vapour pressure of, ... 330
Solubility of solid 322
Stearolic acid 161

Strontium oxalate in silica gel 11
Sublimation, a theory of the rate of, ... 326
Succinamic acid 132
Succinic acid 193
Succinic acid, electrolytic oxidation of, ... 132
Succinic acid semialdehyde 193
Synthesis of dihydro-isoosthol 276

Tariric acid 161
α-Terpineol 384
Tertiary alcohol 388
Tetrachlorethane, on the refractive index and molar refraction of, ... 297
Theory of the rate of solution of solid into liquid 316
Theory of the rate of sublimation 326
Thermal analyses 197
$TiCl_4$-CCl_4, boiling point curve of the binary system, ... 392
$TiCl_4$-CCl_4, freezing point curve of, ... 200
$TiCl_4$-$SbCl_5$, freezing point curve of, ... 204
$TiCl_4$-$SiCl_4$, boiling point curve of the binary system, ... 392
$TiCl_4$-$SiCl_4$, freezing point curve of, ... 198
$TiCl_4$-$SnCl_4$, boiling point curve of the binary system, ... 392
$TiCl_4$-$SnCl_4$, freezing point curve of, ... 202
Transitional period between the copper and bronze age in ancient China, on the, . . 133
Tryptophane 217, 229
Tyramine 18
Tyrosinase 179
Tyrosine 183, 214, 222
Tyrosine, electrolytic oxidation of, ... 178
